GOV. BLACK AT LOUISA MONDAY, OCTOBER 13TH

Attention is again called to the announcement of Gov. James D. Black to speak at Louisa at one o'clock on next Monday, Oct. 13th.

He is in demand at a great many points over the State and Louisa is one of the comparatively few places he will be able to fill because of the demands made upon him by the duties of the office of Governor.

Wayne County Letting More Road Contracts

On Thursday of this week a contract was let for building seven miles of hard road between Wayne and Kenova. This makes a total of 13 miles in that direction. Work is progressing satisfactorily on the six miles already being built.

The final survey is being made for six or seven miles between Wayne and Fort Gay and the contract will be let next month. This will bring the road within five or six miles of Fort Gay. A survey is to start soon for a road to Mingo county.

FIND BIG STILL ON RICH CREEK. Sheriff H. H. Cyrus, of Wayne, accompanied by G. C. Hunter, Sam Kinister and John Sutphin captured a forty-gallon still and several hundred gallons of prepared mash on Rich creek, Wayne-co., about midway between East Lynn and Dunlow.

Sheriff Cyrus and Prosecuting Attorney Ferguson had for some time received intimations that a distillery was operating in that territory and proceeded to lay plans for discovering its location. Acting upon what appeared to be authentic information as to its whereabouts Sheriff Cyrus accompanied by the other officers went to Rich creek Tuesday night last week and found the still which was plainly an institution that had been operated for many months. The owners, evidently warned in advance, had disappeared and had, apparently, taken with them into safe hiding all the finished product.

Wm. D. Peters Dies After Short Illness

After an illness of only two days Mr. Wm. D. Peters passed away last Sunday morning at 2 o'clock at his home near Fort Gay, W. Va. Asthma in severe form is said to have caused his death. He was one of Wayne county's best citizens. Mr. Peters had for years been a faithful member of the Christian church. His age was 78 years, 10 months and 17 days. He was one of a family of nine, two of whom, Jake and Garred, died a few years ago. The surviving brothers are John N., of Saltper, W. Va., Chas. F., of Fort Gay, Jas. B. and C. B., of Louisa, M. D., of Kansas. Also, one sister, Mrs. Smith of South Pekin, Ill.

Mr. Peters married a daughter of Samuel Vinson, deceased, formerly United States Marshal of West Virginia. She, with ten children survive. The sons and daughters are Sam, V. of Oklahoma, John, of Arizona, Mike, Taylor and Gordon C., of Ft. Gay, Wm. H., of Wayne, Mrs. John B. Arrip of Ceredo, Mrs. Wayne Arrip, of Ft. Gay, Mrs. Mamie Crutcher, of Virginia, and Miss Daisy Peters, who holds a position in the navy department, and arrived home last Sunday from Norfolk, Va.

The funeral service was held at the home on Tuesday afternoon and was attended by a large number of relatives and friends. Rev. L. D. Bryan, of Fort Gay conducted the service. Burial took place in the family cemetery near the home.

C. & O. BRAKEMAN LOSES TOES.

W. H. Frazier, a C. & O. brakeman, of Ashland, was operated on at the company hospital at Huntington, W. Va., on Wednesday and all the toes of his left foot taken off.

The foot was crushed at Island Creek on Tuesday evening while Frazier was working between two freight cars. Dr. Z. A. Thompson, of Pikeville, accompanied him to the hospital and it was feared that the foot would have to be amputated.

He is the son of John Frazier, of Smoky Valley, this county.

SPEAKING IN ELLIOTT.

Attorney F. M. Vinson made a speech at Sandy Hook, Elliott county, last Monday in the interest of the Democratic ticket. A large crowd was present. E. E. Shannon, candidate for Representative in the Legislature, was there also.

CIRCUIT COURT.

The Lawrence Circuit Court will convene at Louisa next Monday for a term that is expected to last nearly or quite four weeks.

FLOYD COUNTY WILL ISSUE BONDS FOR GOOD ROADS

Floyd county on last Saturday voted favorably on a proposition to issue \$200,000 in bonds to build good roads. The majority was 2000 or more, which is very large. This speaks loudly for the enterprise of old Floyd. Her citizens have awakened and intend to make the county a desirable place to live and a prosperous territory in which to do business.

The State and nation will add to this about \$333,000, making a total fund of more than half a million dollars for good roads in Floyd county.

This completes the chain of Big Sandy counties from Boyd to Pike, except Lawrence, which is the missing link. Is it possible that we will persist in occupying such a position?

How About Lawrence?

The Lawrence Fiscal Court, now in session, has been asked to take the same step that other counties have taken in this matter, but the question has been deferred until Friday morning of this week. If our people will rise above the petty arguments and prejudices and look at this big business proposition with the broad view that it deserves they will not hesitate to go ahead and vote us large a bond issue as the law will permit.

It will help the oil development, the farmer, the merchant, and every business in the county. It is the only salvation. We can not keep within sight of the growth of our neighbor counties if we do not build good roads.

Let's vote a bond issue. The prosperity that will result from good roads will easily take care of the amount required annually to pay the interest and retire the bonds in thirty years.

The World Series of Baseball Games

The Cincinnati team won four of the first five games played for the world's championship and then lost the games on Tuesday and Wednesday of this week. Nine games are the limit in the series and the first club to win five is the victor. Each player on the winning team will receive over \$5,000 for these games, in addition to his salary and expenses for the season. The losing team will distribute a little over \$3,000 each to its players.

NEWS OF THE LOCAL OIL FIELD

The pipe line from the upper Blaine field will be completed Saturday of this week. Very soon thereafter the rich fluid will be flowing to market and the promising new field opened by the Union Gas & Oil Company will begin to bring gratifying returns to its developers. This is the day that has been looked forward to for several months.

A well good for 8 to 10 barrels per day has been drilled in on the Wm. Diamond farm now belonging to J. P. Gartin. This well is three miles west of Louisa.

Also, well No. 3 on the Conley lease has been completed and is estimated to be good for 15 to 20 barrels. This is about a mile west of Potter station and four miles from Louisa.

The last well on the Lino. Moore farm on Two Mile is better than the average of that locality.

J. N. Marcum and J. P. Gartin have sold a block of leases on Lick Creek and it is said they will be developed.

A number of drilling outfits are being shipped in here to push the development.

SOMETHING ABOUT THE Y. M. C. A.

(By DR. S. P. FETTER)

The State Y. M. C. A. of Kentucky has been invited by the U. S. Government and the Kentucky State Board of Health to carry on a definite program of "Keeping Fit," by means of a campaign of Sex Hygiene among boys and young men of the State. One of the State Secretaries will be present to promote this campaign through organizations in each community and high school. He can reach the 88,000 high school boys in the State with this message through the "Hi-Y" organizations in less than ten days.

President Roosevelt was sickly and frail when a boy, but by faithful training and carefully directed play and recreation, he achieved the vigor of manhood. We recall his games of tennis while in the White House, and his great recreation hunts scattered all through his active career.

Fifty per cent of the twenty-five million boys and girls of school age in this country have physical defects and ailments which sadly impede them (Reported from Washington.)

General Robert E. Lee wrote this in a letter to his son "I hope you will always be distinguished for your avoidance of every immorality. Hold on to your purity and virtue."

DO YOU KNOW

That our army was the cleanest army every known in history?

That a physically fit army resulted from a "morally clean" army?

That this program of "morally clean" came out of the work of the Y. M. C. A. with the U. S. Army on the border in 1916, backed by one Colonel and the facts brought to the President's attention by a Secretary?

That the U. S. Government was so convinced of its value during the World War that it has prepared ways and means of setting up a similar program in every community to continue the protection over the young man leaving the army and to start the boy right?

That the State Y. M. C. A. is in-

vited to include this work in its program—that the boys "might hold on to their purity and virtue."

The Y. M. C. A. in its war experience has developed methods for applying recreation to masses of men and is now prepared to make this program fit into the ordinary community living, enlisting the women and children as well as men and boys.

Wholesome recreation that requires bodily activity means a sound mind in a sound body for the town as well as the individual. Many community ills can be cured if the folks would have periodical times to play together and forget the monotony and tedium of life.

The State Y. M. C. A. of Kentucky has a program of healthful community recreation and the machinery that puts it into effect. It has a State Director of Education and Recreation, and his whole time and thought are to be given to a State-wide program.

You Don't Need to Sicken, Grip, or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't salivate.

Because it's For One Thing Only, and Louisa People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Louisa evidence to prove their worth.

Mrs. J. H. Hatcher, Lock Ave., says: "I have used Doan's Kidney Pills off and on for several years and have been greatly benefited by them. Sometimes my kidneys have become disordered causing my back to be weak and lame. I have not only suffered in this way but have had dizzy spells and nervous headaches. My kidneys have been too frequent in action, also. Not once has a box or so of Doan's Kidney Pills failed to help me. They have always rid me of the symptoms."

PRINCE ALBERT

the national joy smoke makes a whale of a cigarette!

YOU certainly get yours when you lay your smokecards on the table, call for a tidy red tin or a toppy red bag of Prince Albert and roll a makin's cigarette! You'll want to hire a statistical bureau to keep count of your smokestunts! Why, you never dreamed of the sport that lies awaiting your call in a home rolled cigarette when it's P. A. for the packing!

Talk about flavor! Man, man, you haven't got the listen of half your smokecareer until you know what rolling 'em with P. A. can do for your contentment! And, back of P. A.'s flavor, and rare fragrance—proofs of Prince Albert's quality—stands our exclusive patented process that cuts out bite and parch! With P. A. your smokesong in a makin's cigarette will outlast any phonograph record you ever heard! Prince Albert is a cinch to roll. It's crimp cut and stays put like a regular pal!

Prince Albert upssets any notion you ever had as to how delightful a jimmy pipe can be! It is the tobacco that has made three men smoke pipes where one was smoked before. It has won men all over the nation to the joys of smoking.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the grippe misery. Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Corns Come Off Like Banana Peel

"Gets-It" Leaves Toe Smooth As Your Palm. Never Fails.

Ever peel off a banana skin? Well, that's the way "Gets-It" peels off any corn or callus. It's a ointment. Nothing else in the world will do it.

"2 Drops of 'Gets-It,' Goodbye Corns!"

but "Gets-It" because of the new secret principle in the "Gets-It" formula. "Gets-It" does away forever with "contractions," "wrings," "plasters," ointments that rub off, blood-letting knives, and seissors that snip into the "quick." "Gets-It" eases pain. It takes but a second or two to use "Gets-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on again. Your corn will come off painlessly in one complete piece. That's common sense. It never fails. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill. Sold in Louisa and recommended as the worlds best corn remedy by Louisa Drug Co.

ANNOUNCEMENTS.

For State Senate.
We are authorized to announce Hon. BRIG H. HARRIS, of Boyd county, as a candidate for the State Senate from the district composed of Boyd, Lawrence, Johnson and Martin counties, subject to the action of the Republican party.

The strike of the steel workers is practically over and the strikers have lost. Public sentiment is bitterly against them.

Gov. James D. Black is a successful business man and that is what the State needs in the Governor's chair. The man who has not been able to earn a living for his family is not capable of conducting the big business of a State.

One encouraging feature of the present strike situation is that American workmen are refusing to join in the strike and are leaving the foreigners to fight it out. Some Pittsburgh mills this week report every American at work. Fire the foreigners across the ocean.

The prohibition amendment to the constitution of Kentucky is to be voted on at the November election this year. It is on a separate ballot from the general election, but each voter is expected to vote on the question at the same time, receiving both the ballots. Do not overlook it. Let Lawrence coun-

ty see how near she can come making it unanimous for State-wide prohibition.

Foster, the I. W. W. serpent who was called before the Senate committee in the strike investigation, admitted that all except a few of the lowest laborers were getting ample wages and that they were not striking for more money, but for "happiness." He admitted that some steel workers were getting \$30, \$40 and even \$60 per day. Think of a disturber like Foster being able to induce a lot of such highly paid men to strike for happiness! Happiness, that elusive something that everybody seeks and very few find in the material world. It is not at all complimentary to their intelligence that they will listen to such rot and go so far as to help break down the business of the country and destroy their own prosperity. Foster and all others of his type should be locked up permanently. He was confronted with books he had written advocating anarchy and revolution.

Harry A. Somers, editor of the Elizabethtown News, at times spoken of as a gubernatorial possibility, says that Edwin P. Morrow is springing 'Republican chestnuts' when he promises that, if elected, he will 'abolish a lot of useless offices.' Commenting further, he says: "We have heard many candidates for Governor promise this, but we never have seen abolished offices." He recalls that Governor William A. Bradley and Augusta E. Willson promised the same thing and ascertains that neither abolished a single office and that "instead of decreasing the expenses of the state both increased them." Mr. Somers declares that Morrow "is no better and no smarter than other Republican Governors who fell down on the same sort of promises. We do need economy in the state, but we would rather risk it with a successful business man like Governor Black than with an unsuccessful business man like Morrow."

Do Kentuckians want a hand picked, hand controlled Governor?

It is common knowledge that the Republican Party in Kentucky is a "one man" party—solely in the control of A. T. Hert. It was shown at Lexington where the rank and file of the party were disfranchised of their primary rights and forced to accept a slate already prepared for them.

Witness the high handed methods of Searcy, Hert's man "Friday", in his treatment of George W. Jolly of Owensboro who was clearly within his rights in seeking preference at the primary. Witness also the disgraceful primary election in the negro ward in Louisville where the Republicans did not dare let the negroes vote as they wished.

Put Morrow in the Governor's chair at Frankfort and Kentucky will be governed from Louisville. It will be dominated by this one man whose interest is selfish and whose purpose is clearly to use Kentucky merely as a stepping stone to influence and authority in National politics. Hert will push the button! Searcy will pull the string! And Morrow will do the jumping!

A Word About the Fresh Meat Business

We feel justified in asking for the patronage of the people of Louisa and vicinity in the Meat line because we conduct the business all the year around. It has been the practice here for many years for one or more persons to engage in the fresh meat business during the more profitable season and drop out when warm weather comes with reduced demand for meat and with the heavy expense for ice, etc.

When the price of cattle dropped recently we reduced the price of meat accordingly. It is our intention to treat the public right at all times and to give the best service possible.

We also carry a good line of Groceries and will appreciate your patronage.

For every use.

On buildings with broad roof areas, on soaring sky-scrapers, and all kinds of farm buildings, **Certain-teed Roofing** is giving lasting and complete weather protection.

On every sort of building it is turning back rain and snow, heat and cold, year after year, with almost no up-keep cost. Severe weather cannot affect it.

Certain-teed Roofing is easily and quickly laid by anyone who will follow the directions that come with the roll. It costs less than the ordinary kind of roofing—and lasts much longer. It sturdily stands against sparks—a real fire protection. It cannot corrode or rust.

For your buildings new or old—large or small—in the city or country—**Certain-teed** is the logical roofing investment.

Certain-teed is made in rolls, both smooth and rough surfaced (red or green)—also in handsome red or green asphalt shingles for residences. **Certain-teed** is extra quality—the name means **certain** of quality and satisfaction guaranteed. It will pay you to get **Certain-teed**—most dealers sell it. Ask for **Certain-teed** and be sure to get it.

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil.)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

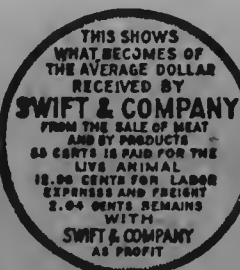

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

HOME CIRCLE COLUMN

In these days of high prices we should be careful not to live beyond our means. A rainy day may come when we will need a little extra money, and it is a good plan to put aside a few cents or dollars whenever possible. A little "savings" won't hurt anyone, and it is not at all necessary that we should buy the highest priced goods in the market. A shoe dealer said recently that people refused to buy lower priced shoes. They demand the goods with the highest price tag, and then complain of the high cost of living.

Existence for both men and women is a continuous battle, sometimes staged in an office, sometimes in a factory, sometimes out in the fields or forests, and sometimes in the kitchen. Everywhere it is necessary that we fight against either mental or physical forces. And, because life is long and the battle continuous, it is the persistent person, the one who hammers away continuously, rather than the spasmodically forceful person, who wins out.

Oftentimes we lavish a great deal of sympathy upon a friend or relative who has a brief period of illness, while we are neglectful of even the comfort of a "confirmed invalid." Perhaps it is only natural that we should become hardened to seeing the continued suffering of an invalid and yet we should not forget that the one who is ill never can become hardened to the pain he endures. We ought to remember this, and try to be cheerful and patient, bringing as much sunshine as possible into the lives of all sufferers.

It is only by doing things which appear almost impossible, that we are able to test our own powers. We will never grow if we continue to do only those things which are easy for us. There are very few things in this world within reason which everyone of us cannot accomplish if we have the will to do them. I rather imagine that, a few years ago, had some stranger come into our quiet little village and told our boys what it meant to go "over the top" in France, or engage in dangerous air battles, they might have thought it impossible for them to do these things. Yet they have done them and with credit.

There are few of us who are not called upon to do what seems to us the impossible. Afterward we look back and wonder how we had the courage and strength, but it always comes to us and always will, if we but do our best.

It is a fine thing to stand in the midst of busy belts and whirling pulleys, with the knowledge of the governing laws in your brain, and the quick control of them in your right hand; but it is finer and grander to stand where any mother may stand, if she will, among the living spirits which are to dominate the wheels; pondering the laws of human agency, directing the development of human activity, bearing the supreme weight of human responsibility; doing it all in utter unconsciousness of self or of sacrifice, strong in the wondrous love which alone of earthly emotions is all pervasive and all powerful against the grind and wear and worry of the world.

One of the most contemptible tricks in the universe is "listening in" on a telephone wire. To be sure sometimes drastic measures are necessary in order to get the use of the wire, but ordinarily most people listen merely out of curiosity and then instead of treating the conversation they have heard as private, they set about publishing

it in some such way as this: "You know, the other day I didn't know Mrs. Jones was using the wire but just as I took the receiver off the hook, what do you suppose I heard her tell Mrs. Smith," etc., etc.

Now you know, my good woman, you can't take the receiver off the hook more than a dozen times just at the psychological moment to hear that juicy bit of gossip and still make people believe it was an accident. In speaking of you they will soon begin to say, "I'm glad I'm not on Mrs. Brown's wire. All she does is tell me what she hears by accident over the telephone. Well-timed accidents, I would say."

So beware, Mrs. Brown, wherever you are (and there are a lot of you in the world) and don't hear too much over your phone. You know how well you like to have someone "listen in" on you.

Worthwhile charity isn't so much the giving of material substance; it is charitable thinking in regard to our neighbors. Right and good thoughts concerning those about us will help to bring the good and true into our own lives. On the other hand, if we listen to slanderous gossip and repeat the tales to others we cannot help but sink lower ourselves.

DEWS OF EVE

No More Gentle Than "Cascarets" for the Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock-absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts. Cascarets give quick relief without injury from Constipation, Bloating, Indigestion, Gases and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.

Taxes Going Up

Teachers Underpaid

Under Stanley Democratic rule, in the three years 1917-1918, the estimated value of all property assessed for taxation in Kentucky has increased the enormous sum of \$20,774,000. During the same period, the amount distributed by the state to the counties to pay the salaries of school teachers has only increased the pitiful sum of \$46,704.27.

Stanley O. K's Pay Cut

In 1918 a Democratic legislature passed a law and it was approved by Governor Stanley, March 18, 1918, cutting down the amount of money for school teachers' salaries from 24 cents to 16 cents, and many teachers were forced to quit their jobs altogether or to seek positions in other states.

The School Teachers' Merry-Go-Round

The records show that in 41 counties in Kentucky, the salaries of school teachers were more in 1917-1918 than in 1919. They also show that in 71 counties the salaries were more in 1918 than in 1917, and 1919. This has forced hundreds of teachers to travel from one county to another seeking better pay to meet the high cost of living. In one county in Kentucky, out of 104 teachers last year only 23 returned this year.

In another county only seven out of 48 returned. In another county only 5 out of 95 returned. In one of the largest and best counties of the state only one rural teacher has not changed location within the past five years.

Holding Up the Teachers' Pay

In the same month that Governor Stanley approved the law cutting down the teachers' salaries, the state owed the teachers for back pay, \$200,000. Three months later this amount had jumped to \$1,400,000. On June 10, this year, the state still owed the teachers for back pay \$200,000. In 1918, the first month's salary was paid in October after three and a half months of teaching. The final payment was not made until August, 1919, eight months after the close of the month. Last year a law was passed to remedy this, but at that salaries are still running here. In addition to having their salaries cut, the teachers also have their pay held up.

Cutting Down the School Year

Three months after Governor Stanley signed the bill cutting down the teachers' pay, the school year was cut from 7 months to 6 months. The children were deprived of a whole month's schooling. This year, the school year ending June 30, 1920, was kept at 6 months instead of being put back to 7 months, thus depriving the children of another month's schooling. Twelve months' schooling in two years in place of 18 months.

Gilbert's "Sore Toe" Book

Gov. Gilbert's printing bill is costing the taxpayers three times what they paid under Governor Whitson (Republican). Among the books paid for by the taxpayers at a cost of \$15,000, was the famous "Sore Toe" book, copyrighted by the equally famous Dr. W. L. Walker, whose "Physiology" was ridiculed by the leading Democratic newspapers of the state. This "Sore Toe" book tells little Jodie how to wrap up a "puncture" in his foot, warns little Jennie not to eat meat more than once a day, calls on dad to shave off his whiskers, advises mother to wash an egg before boiling it, and demands the killing of all dogs and cats.

Gilbert's Extravagance

The minute Dept. Gilbert got into office he began sapping up his own office, at Frankfort, with desks and stenographers. The salaries in his department have gone up to three times what they were under Governor Whitson (Republican). The Democratic legislative probe committee of 1918 condemned the Bureau of School Inspection for giving salaries to people who did no work, but there has been practically no change. Tomorrow will change it.

Text Book Commission Farce

The Stanley Text Book Commission changed most of the books in the grades and would have soaked the parents of the children \$200,000 more for their books, but the whole adoption was thrown out by the Court of Appeals. Urged by leading Democrats all over the state to also throw out the Text Book Commission, Governor Black tossed a deaf ear and by the time a new adoption was made the publishers were so delayed that many schools have been forced to get along with old books, and some of them didn't get the new books at all for proper work this year.

Zollie Bevins Killed.

Fireman, Zollie M. Bevins, age 37, of Portsmouth, Ohio, was almost instantly killed in his own engine Sunday morning, September 28, about one o'clock, just out of Portsmouth. He was passing another train partly loaded with lumber and a plank from one of the cars was sticking out, which struck him on the arm and shoulders, badly mashing him. He lived only one hour and fifty-five minutes.

He was the son of Mr. and Mrs. Mat Bevins, deceased, of Millard, this county, and leaves a wife and four children, Edward, 9; Mildred, 7; Madeline, 4, and Emeline, 2, besides a host of other relatives and friends of Pikeville and Pike county.

In 1909 he married Miss Johnson, sister of County Court Clerk J. M. Johnson and traveling salesman W. E. Johnson of this city.

The remains were brought here from his home at Portsmouth Monday night, and taken to Regina Tuesday where the funeral and burial took place in the Johnson cemetery.

The bonds will be signed by the Mayor and countersigned by the City Clerk, and shall bear the seal of the city, attested by the City Clerk. The interest coupons may be signed by lithographic signatures of the Mayor and the City Clerk. All moneys arising from the sale of said bonds provided for herein shall be kept by the City Treasurer in a separate fund to be known as the "Street Improvement Fund" and the treasurer shall be responsible therefor on his official bond, and shall pay out of the said funds all orders which the city council shall direct paid for any street improvement provided for herein, and shall keep all moneys accruing or arising under the provisions hereof in the same manner and subject to all the regulations regarding other moneys of the city, except that he shall keep a separate account of the same, and credit all interest arising therefrom to said "Street Improvement Fund" and said City Treasurer shall be responsible under his official bond as City Treasurer, for the moneys accruing and received by him hereunder, and for the faithful performance of the duties herein required of him.

All property fronting or abutting or bordering upon said improvement, paving—with the incidental guttering, drainage and sewerage connected with such paving, belonging to the city shall be considered and assessed as property belonging to individuals, and the assessment thereon together with the cost of paving intersections, shall be paid by the city out of the general fund and sale of \$10,000.00 worth of bonds heretofore authorized, and charged to the "Street Improvement Fund," and the cost of any improvement made hereunder shall be assessed equally by the front foot upon the property fronting or abutting, or bordering upon said improvement, and this assessment shall be made as soon as the improvement fund is fully completed, and the sum assessed against each piece of property, and also the owners thereof, shall be placed upon the tax list of the city, and shall be payable to the city treasurer, in ten equal annual installments with interest at the rate of six per cent per annum which said bonds bear upon the unpaid portion thereof.

The first installment, together with the interest on the whole amount not paid at the first payment of taxes next succeeding the time the assessment is placed upon the tax list, and the other installments annually thereafter, and always at the time of the payment of other city taxes together with interest at said rate on the installments not due at the time, until all installments are paid.

The assessments thus made against property fronting or abutting or bordering upon said improvements shall be collected like other taxes, or the city may at any time after the installment remains delinquent for 30 days, by suit in equity, enforce its lien with all unpaid installments, with interest at the said rate thereon to date of satisfaction thereof and its cost expended.

Section 3. The city treasurer shall not be entitled to receive any compensation whatever for his services in collecting taxes provided for herein, nor for any other services performed hereunder unless the city council see proper by ordinance to make him a specific allowance therefor, which shall be done by the vote of two-thirds of the members elect of said council.

Section 4. The assessments herein provided for under the provisions hereof, together with the interest accruing thereon, shall be a lien upon the property fronting or abutting or bordering upon the streets or improvement made, from the date of the passage of the ordinance ordering the improvement made, and shall remain a lien until fully paid off, including interest and cost, having precedence over all other liens; and said liens shall not be defeated or postponed by any judicial sale, or by mistake in the description of the property or in the names of the owners thereof.

Section 5. All money received from the assessment herein provided for shall be apportioned, upon the order of the city council, to the payment of the interest and to the redemption of the bonds which may be issued for the improvements herein provided for.

Section 6. The owner of lots or parts of lots of land, may at any time after the assessment for a street improvement is made, pay off in full the whole amount provided for the payment of said city taxes, and the lien herein established shall be satisfied by such payment, or if any owner or owners shall divide his property so that the number of feet fronting the improvement is separated in small lots or tracts, the lien may be discharged in like manner upon any one or more of the separate lots or tracts by payment of the amount thereon, or the lien may be apportioned to the new owner or owners by the city clerk calculating by the ratio of feet front of such lot or lots or parcels to the front foot of the original tract.

Section 7. It is deemed necessary that the city of Louisa incur an indebtedness of One Hundred and Fifty Thousand (\$150,000) Dollars as herein provided, as the payment of such indebtedness can not be met by said city without exceeding its annual income and revenue for the year of 1919 and 1920, or for many years thereafter.

The Best Insurance Against Influenza

Prominent Educator Believes That Vapomentha is A Sure Preventive

Dr. R. M. Brame, discoverer of Brame's Vapomentha Salve, has a letter from C. C. Wright, Superintendent of the Wilkes County, N. C., Public Schools, in which he says: "We have used Brame's Vapomentha Salve for nearly all the ills for which it is prescribed and have always secured satisfactory results. If used in time it has never failed to break up colds, usually the forerunner of Grippe, Influenza and Pneumonia. . . . I speak from personal observation. I believe if this preparation is used in time it will prevent the development of pneumonia in every instance if used according to directions."

These strong statements are fully justified by the remarkable recoveries that follow Brame's Vapomentha Salve is applied freely over the chest and throat and inserted in each nos-

tril. Brame's Vapomentha Salve penetrates the pores of the skin, relieving congestion, at the same time healing vapors arise and are breathed through the mouth and nose loosening the phlegm and causing the patient to breathe freely. Its absolute reliability is evidenced by dozens of uncollected testimonials. Brame's Vapomentha Salve will relieve pneumonia, influenza, grippe, pleurisy, bronchitis, whooping cough, catarrh, asthma, tonsillitis, hay fever and inflammation of the skin.

Vapomentha is applied externally, and it will not stain the clothes, as other salves do. No home should ever be without it. Buy it from your druggist or direct from the Brame Drug Co., North Wilkesboro, N. C. A small bottle costs 30c.; a much larger one, containing six times as much, \$1.20.—Adv.
